# Meet The Managing Director

As a kid, I was always fascinated with the buildings, railways and bridges. I used to watch the project sites with lots of enthusiasm and was amazed the way project used to take live shape before my eyes. I spent my 4 years at NIT Mizoram learning Civil Engineer so that I can be flag bearer of such projects. 2 years of practical experience at NBCC gave me vision to start with Rajmati InfraProjects and since then Sky has been the limit for us.
